Renowned singing teacher Susan M. Carr's technique of "The Art of Screaming!" was first developed in 1978 and has since been refined during the Grunge Music scene. Since then, Carr's worked with bands such as Minus the Bear, Mastodon, and Sunny Day Real Estate. In the Art of Screaming, everyday vocal enthusiasts can learn where the "scream/growl" is made and practice their power, range, and tone from their own living room.
